7:00-9:00am or 5:00-7:00pm

Friday, September 9
7:00-9:00am or 5:00-7:00pm

Hustlin' in the Marsh

Get off the road and experience a trail run through the largest freshwater cattail marsh in the United States. The “Hustle in the Marsh” gives participants an opportunity to be immersed in this beautiful setting and see a wide variety of wildlife while running or walking.

While we love to showcase all the marsh has to offer, we do ask all participants to be respectful while using the trails in the marsh. Much of this trail route runs through animal habitats and it could be harmful leaving water bottles, wrappers, or other debris behind. Please be a gracious guest in the backyard of these animals and keep all potentially harmful debris with you until a designated trash bin becomes available to you.

Hitting the Trail

The route begins at the Horicon Marsh Education and Visitor Center for both 5K and 1K participants. The 1K route will take two laps around the quick loop and finish where it begins.

The 5K route will take participants through a small wooded loop and around the freshwater marsh to return where the route began.
